Connecting students  
to community Support

# ABOUT

I&I International is a non-profit, 501(C)(3) organization designed to connect students to their community with:

- Academic support
- Social-emotional wellbeing
- Career Pathway

We are the platform that allows all stakeholders an opportunity to guide our students to community outreach as they learn their future STEM career path.

## LEARNING GLOBALLY TO HELP LOCALLY

### *Learn How You Learn*

I&I International connects students to programs that teach parents and teachers the most advantageous ways to accelerate their students' academic learning.

### *Community Internships*

Our community internships match our students with established community members who are able to provide mentoring and support in our students' chosen career field.

### *Stay Connecting*

I&I International provides high school students with volunteer opportunities to plug into their community to help rebuild and sustain them..

### *Connecting Globally*

I&I International recognizes the value of international travel because it offers students the ability to meet people from all over the world and expand their cultural knowledge and fluency, leading them to be even stronger community citizens.
